ENGAGING CLASSES

As a YES USA student, students will have the opportunity to learn extensively about the city, its diversity, and the **day-to-day** life of an average American.

Each lesson is constructed around a **real-life task** that students must complete, adding an engaging dimension to our classes. For example, students may be tasked with **creating their own YouTube video** to compare their experiences in the US with their life back home. With YES USA, students won't even notice they're learning!
